

k://lab

where legal meets tech

Innovation is the key

We have been fostering the culture of innovation for the past 20+ years by supporting the work of cutting-edge entrepreneurs and inventors in the SEE. We take pride in our legal practice, tradition, regional network, expertise and we are taking the next step by embracing the future.

With k://lab, we want to create the first and unique hub for talents, to share our market-leading expertise with a new generation of creative minds and spearhead the game-changing fusion of legal and tech in the region.

Been there — done that

Back in 1995 our beginning was “start-up-ish” as well. It all started with a small group of enthusiasts and their idea to provide world-class legal service. Innovation is deeply rooted in our culture and pioneering is what we do.

Today, karanic/partners is a regional legal practice with a widespread network of professionals who share our vision and values. After all these years, we can tell from experience that all it takes is an idea and the team.

We bring power of the team

We know how to help any start-up grow.

At k://lab, we are joining forces with our partners across different fields to provide mentorship and support.

As a team, we will work together with you to help your business grow.

k://lab

Guiding you all the way

... from FFF to IPO up to unicorns.

With our vast experience in each phase of a start-up's life cycle, we will be glad to support you on this business and life journey.

Both early-stage and scaling start-ups are welcome at k://lab. Our goal for the future is to find and develop hidden gems in the region and help them transform their ideas into action.

At the end of the k://lab experience, you will be prepared to present your pitches and try to obtain financing from respectable investors from the region at the Demo Day event we organize for the participants in the programme.

...with the secret ingredient from k://lab

With k://lab you can get support package to kick-start your evolution.

Legal Support. You will be introduced to our professionals in the areas of technology, financial services, intellectual property, data, employment, commercial (regulatory), competition and company law. They know the way through and will use their expertise to keep you one step ahead of your competitors.

Networking and testing. Our platform enables you to test your ideas in real-time with immediate user feedback.

Coaching. We had to learn how each specific industry functions from the inside in order to be able to provide tailor-made services to our clients. Our network of professionals and partners can provide personalised coaching and development sessions in commercial and legal negotiations.

Advisory Support and Mentorship. We will be always close by, providing help when needed, and maintaining the constant flow of ideas.

... and much more.

... and open doors

We have always practiced borderless, open communication.

k://lab is envisaged in a way that encourages collaboration and team spirit – our doors are always open to any suggestion, brainstorming session or question you might have.

How it works?

We are always thrilled to support fresh ideas and innovative ways of doing business. Thus, we are constantly looking for new startups to work with – if you are looking for added value, enthusiasm, market intelligence and connection, k://lab is the place to go.

There is no minimum size/shape/age/financial position for acceptance into k://lab. We will be focused primarily on the strength, uniqueness and promise of the concept and the team. The applications for the programme will be accepted from newly formed businesses through to the pre IPO/exit stage.

To discuss potential opportunities please get in touch via email klab@karanovicpartners.com

k://lab is a platform which includes professionals of various fields. Karanović & Partners, as part of this platform, provides solely legal services.
