k/andidate

becoming a lawyer

k/andidate is the unique trainee experience and a fast track to the legal career you always dreamed of.

Becoming a trainee in a law office is an amazing experience – you move from learning about the law to actually doing it. And starting as a trainee in Karanovic & Partners is just the beginning of what will be a stimulating and rewarding legal career. You'll build your legal and soft skills through trainings and real work supervised by our lawyers, attend client meetings and court hearings and start delivering important work for our clients.

We know how transition from law school to real work can be challenging and we will work closely with you and provide you with the right support to help you grow from a talented beginner to a successful lawyer. Check our brochure "How to become a k/andidate" for further details on the programme.
